

Spill Scooter
SKU# 5205-YE

Dispensing and collection activities are some of the most susceptible scenarios for a spill to occur. Protect your plant from incidental drips and leaks while retaining your mobility with the ENPAC Spill Scooter. Four caster wheels easily support the drum while making maneuverability a breeze. It also includes a molded pour spout for easy draining. Plastic design won't rust or corrode. Optional handle for greater ease-of-use. Perfect for vertical dispensing or collection operations.
